

Indiana Department of Education  
SUPPORTING STUDENT SUCCESS

## MEMORANDUM

**TO:** Indiana School Superintendents and Principals

**FROM:** Anne Brinson, Assistant Superintendent for Information Systems

**DATE:** November 21, 2008

**SUBJECT:** Student Information Systems (SIS)

The Department has recently contracted with Quest Information Systems to conduct a study regarding student information systems (SIS) that are in use throughout the state, the related costs, and the feasibility of the state offering an option to individual choice at the local level.

The intent of this study is to gather information about the current state, plans, opportunities and opinions on this matter.

Next week the survey will be released to superintendents in each public school corporation. In anticipation of the January legislative session we will be requesting a fairly quick turnaround on this short survey.

We appreciate your cooperation and will provide you with the final results.

Any questions should be directed to [abrinson@doe.in.gov](mailto:abrinson@doe.in.gov) or 317-232-0807.
